The Cancer Champions mission is to build an empowering community where cancer survivors gain physical, mental, and emotional support through our specialized fitness, nutrition, and wellness programs, as well as private, one-on-one coaching.

PROGRAMS

Cancer Champions provides members with fitness, nutrition, and mindset guidance via online programming designed specifically for the needs of those battling cancer. We are expanding our reach in Yolo County to serve those close to home, where the idea for Cancer Champions formed many years ago. Through outreach and awareness, we are expecting to at least triple the number of cancer patients/survivors we serve this year, with our primary focus being serving those in Yolo County.
